ALTERNATE ROUTE RESPONSE PLAN

Minor Impact to Traffic (Less Than 30 Minutes)

Off Peak – Shoulder Blocked	Diversion not implemented: • On-scene traffic control • Deploy informational DMS messaging for approaching traffic
Off Peak – Shoulder and One Lane Blocked	

Intermediate Impact to Traffic (30 Minutes to 2 Hours)

Peak Period – Shoulder Blocked	Diversion not implemented: • On-scene traffic control • Deploy informational DMS messaging for approaching traffic
Off Period – Shoulder and One Lane Blocked	
Peak Period – Shoulder and One Lane Blocked	Partial Diversion: • On-scene traffic control • Deploy informational DMS messaging for approaching traffic • Deploy DMS messaging directing through traffic to use diversion routes • Monitor local diversion routes at critical locations as needed
All Lanes Blocked	Full Diversion: • On-scene traffic control • Deploy DMS messaging directing all traffic to use diversion routes • Deploy law enforcement to direct traffic at critical locations

Major Impact to Traffic (Greater Than 2 Hours)

Peak Period – Shoulder Blocked	Diversion not implemented: • On-scene traffic control • Deploy informational DMS messaging for approaching traffic
Off Period – Shoulder and One Lane Blocked	
Peak Period – Shoulder and One Lane Blocked	Partial/Discretionary Diversion: • Deploy cones, barricades, and other appropriate traffic control devices • Deploy informational DMS messaging for approaching traffic • Deploy DMS messaging directing through traffic to use diversion routes • Divert traffic to local diversion routes at discretion of incident commander
All Lanes Blocked	Full Diversion: • Deploy cones, barricades, and other appropriate traffic control devices • Deploy DMS messaging directing all traffic to use diversion routes • Deploy law enforcement to direct traffic at critical locations

RESPONSIBILITIES

Cedar County Dispatch	563-886-2121

Coordinate with the incident commander as to whether a diversion route is needed and which one should be implemented.
• Notify Iowa DOT statewide TMC of route implemented, incident specific or maintenance needs, and who the incident commander is.
• Dispatch County Sheriff, local law enforcement, and fire departments as needed.
• Inform local municipalities and other jurisdictions that a diversion route is being implemented.
• Deploy law enforcement to direct traffic at critical locations as needed.
Emergency Responders:
• Secure scene.
• Provide incident information, diversion route recommendations, and towing needs to E911.
• Minimize impact to traffic.
• Provide manual traffic control as needed, or as directed by E911 at critical locations.

Iowa DOT Statewide TMC	515-237-3300

Deploy informational DMS and 511 messages to alert motorists of construction, delays, incidents, closures, etc. and/or directional DMS messaging to direct traffic to the implemented diversion route.
• Monitor incidents and critical locations along the implemented diversion route.
• Coordinate with Iowa DOT maintenance facilities regarding traffic control needs.
• Deploy PDMS and Portable CCTV devices as needed for longer duration incidents.
• Coordinate with local municipalities regarding the modification of signals, signal timing, or stop signs.
• Notify Illinois DOT and Illinois State Patrol of implemented diversion routes crossing into Illinois.
• Coordinate with railroad authority regarding key crossings along the implemented diversion route.

Iowa State Patrol Comm. Center	800-525-5555

Dispatch State Patrol.
On-Scene Incident Commander:
• Secure scene.
• Notify appropriate communications center of incident location, anticipated duration, affected lanes, and identify the incident commander.
• Coordinate with the communications center regarding diversion route needs.
• Minimize impact to traffic through coordination of on-scene traffic control.
• Ensure overweight vehicles are parked.
• When the incident is safely cleared, notify the appropriate communications center that the diversion route is no longer needed.

CRITICAL CONTACTS

Muscatine County Joint Communications Center (MUSCOM)	563-262-4159

Inform emergency responders and local municipalities that a diversion route is being implemented.
- Monitor critical locations.
- Provide manual traffic control as needed, or as directed by E911 at critical locations.
- Notify Iowa DOT statewide TMC of any issues along the implemented diversion route.
- Coordinate with Iowa DOT statewide TMC regarding any maintenance or traffic control needs.

Johnson County Sheriff	319-356-6020

Inform emergency responders and local municipalities that a diversion route is being implemented.
- Monitor critical locations.
- Provide manual traffic control as needed, or as directed by E911 at critical locations.
- Notify Iowa DOT statewide TMC of any issues along the implemented diversion route.
- Coordinate with Iowa DOT statewide TMC regarding any maintenance or traffic control needs.
