## RESPONSIBILITIES

## Scott County Emergency Communications Center (SECC)

Coordinate with the incident commander as to whether a diversion route is needed and which one should be implemented.

- Notify Iowa DOT statewide TMC of route implemented, incident specific or maintenance needs, and who the incident commander is.
- Dispatch County Sheriff, local law enforcement, and fire departments as needed.
- Inform local municipalities and other jurisdictions that a diversion route is being implemented.
- Deploy law enforcement to direct traffic at critical locations as needed.

#### **Emergency Responders:**

- Secure scene. •
- Provide incident information, diversion route recommendations, and towing needs to E911. •
- Minimize impact to traffic.
- Provide manual traffic control as needed, or as directed by E911 at critical locations

#### Iowa DOT Traffic Management Center

Deploy informational DMS and 511 messages to alert motorists of construction, delays, incidents, closures, etc. and/or directional DMS messaging to direct traffic to the implemented diversion route.

- Monitor incidents and critical locations along the implemented diversion route. •
- Coordinate with Iowa DOT maintenance facilities regarding traffic control needs. •
- Deploy PDMS and Portable CCTV devices as needed for longer duration incidents.
- Coordinate with local municipalities regarding the modification of signals, signal timing, or stop signs. ٠
- Notify Illinois DOT and Illinois State Patrol of implemented diversion routes crossing into Illinois. •
- Coordinate with railroad authority regarding key crossings along the implemented diversion route.

| Iowa Department of Public Safety Communications Center   | 319-396-4414           |
|--|------------------------|
| Dispatch State Patrol.   |                        |
| On-Scene Incident Commander:   |                        |
| Secure scene.  |                        |
| Notify appropriate communications center of incident location, anticipated duration, affected  | ed lanes, and identify |
| the incident commander.  |                        |
| On a sublementary with the subsequences is actioned and the subsequences of the subseq |                        |

- Coordinate with the communications center regarding diversion route needs.
- Minimize impact to traffic through coordination of on-scene traffic control.
- Ensure overweight and oversize vehicles are parked.
- When the incident is safely cleared, notify the appropriate communications center that the diversion route is no longer needed.

## **CRITICAL CONTACTS**

Rock Island Emergency Communications Center (RICOMM)

Inform emergency responders and local municipalities that a diversion route is being implemented.

- Monitor critical locations.
- Provide manual traffic control as needed, or as directed by E911 at critical locations.
- Notify Iowa DOT statewide TMC of any issues along the implemented diversion route.
- Coordinate with Iowa DOT statewide TMC regarding any maintenance or traffic control needs.
